

MOHAB EMAD

Data Analyst · Business Intelligence Analyst · Financial Analyst

mohabemadmorris@gmail.com · (+20) 1144451691 · [LinkedIn](#) · [GitHub](#) · Alexandria, Egypt

Professional Summary

Data Analyst and BI Analyst with 1+ year of experience building executive dashboards, KPI reports, and ETL pipelines across sales, finance, and operations. Proficient in SQL, Python, Power BI, DAX, Tableau, and advanced Excel; with hands-on exposure to data warehousing, data modelling, and statistical analysis. B.Sc. in Data Science, Alexandria University (GPA 3.3/4.0). Proven ability to translate complex datasets into actionable insights for non-technical stakeholders. Arabic: native; English: B2.

Technical Skills

Languages & Queries: Python (Pandas, NumPy, Scikit-learn), SQL (MySQL, CTEs, Window Functions, Query Optimisation), R, Git
BI & Visualisation: Power BI, DAX, Tableau, Excel (Pivot Tables, Power Query, Power Pivot, VBA), Dashboard Development, KPI Reporting, Data Storytelling
Data Engineering: ETL Pipeline Development, Data Modelling (Star Schema, Snowflake Schema), Data Warehousing, BigQuery, AWS S3, Data Quality & Governance
Analysis & Statistics: EDA, Statistical Analysis, Hypothesis Testing, A/B Testing, Trend Analysis, Outlier Detection, Variance Analysis, Data Wrangling
Machine Learning: Classification, Regression, Feature Engineering, Hyperparameter Tuning, Cross-Validation, Model Evaluation (Scikit-learn)
Financial Analysis: Financial Modelling, Equity Analysis, Risk Reporting, Ratio Analysis (ROE, P/E, Debt-to-Equity), Investment Research

Professional Experience

Data Analyst Intern – SAS Institute – SAS Viya Platform

Jul – Aug 2023

Remote, Multinational Analytics Software Company

- Built 3 supervised ML classification models (Scikit-learn), achieving a 15% improvement in prediction accuracy through feature engineering, cross-validation, and hyperparameter tuning.
- Engineered automated Python ETL pipelines (Pandas, NumPy) that cut data preparation time by 25% and validated 50,000+ records for end-to-end data integrity.
- Delivered 8+ stakeholder-ready reports translating model outputs into actionable business recommendations for non-technical decision-makers.
- Applied data quality and governance best practices within SAS Viya to streamline insight delivery and accelerate decision-making cycles.

Projects

Call Centre Performance Analysis – BI Dashboard [\[GitHub\]](#)

2025 – 2026

Power BI, DAX, Star Schema Data Modelling, KPI Reporting, Trend Analysis, QBR Decks

- Designed 3 executive Power BI dashboards tracking call centre KPIs across 4 Nordic countries for Bosch; uncovered 100% call abandonment in a 30-minute window and quantified 2,882 wasted agent-hours via EDA.
- Built 15+ custom DAX measures on a star-schema data model to isolate AHT outliers (20.13 min vs. 6.01 min baseline), directly informing Q3 2026 staffing restructuring.
- Prepared QBR decks with trend analysis, gap diagnostics, and prioritised action plans for senior leadership.

Financial Risk BI – Credit Card Fraud Detection [\[GitHub\]](#)

2025

Power BI, DAX, Time-Intelligence, Financial Risk Reporting, Data Visualisation

- Analysed \$25.10M in transactions across 100,000+ records using 10+ DAX time-intelligence measures, flagging 473 fraud cases (\$58.59K) and reducing manual review time by 40%.

Equity & Financial Analysis – Saudi Stock Market, Freelance [\[GitHub\]](#)

2024

Python, Excel, Financial Modelling, Econometric Analysis, Variance Analysis

- Evaluated 10+ Saudi-listed equities using ratio analysis (ROE, P/E, Debt-to-Equity), variance analysis, and econometric modelling; delivered a 12-page investment memorandum for a paying client within 3 weeks.

Education & Certifications

B.Sc. in Data Science – Alexandria University

Jun 2025

GPA: 3.3/4.0 · Statistics, Machine Learning, Database Systems, Data Visualisation, Business Intelligence, Regression Analysis, Data Warehousing

Data Analysis Professional Certificate – NTI, Ministry of Communications, Egypt

Mar 2025

Government-Accredited · SQL, Advanced Excel, Tableau, Python for Data Analysis, Power BI, ETL, Statistical Analysis

SAS Viya Analytics Training – SAS Institute

2023

Supervised Learning, Feature Engineering, Model Evaluation, Data Quality

Leadership & Languages

Leadership: President, College Theatre Team, Alexandria University (Sep 2022 – Present) – directed 5 productions, leading a 20-member team across planning, logistics, and budget management. **Languages:** Arabic (Native), English (B2 – Upper Intermediate)
